The DH400 OE-1 all-weather outdoor enclosure is specifically designed to protect the System Sensor high-temperature model DH400ACDCIHT duct smoke detector from harsh elements. This enclosure provides protection in outdoor installations against rain, sleet, and snow or indoors against dripping water.

This pre-drilled enclosure comes factory ready to fit the System Sensor DH400ACDCIHT duct smoke detector. It features a drop shield top with seamless front, side, and back construction. Fabricated from durable 14-gauge galvanized steel, the enclosure has a durable gray, polyester, powder-coated finish for added protection against rust and corrosion.

The slip-on removable cover is secured with a pair of plated steel screws along the bottom edge. The enclosure also has a provision for a padlock to protect the entire unit against unauthorized tampering.

Convenient knock-outs are located along the bottom to facilitate the connection of all types of electrical conduits and casings.

Special sampling tube gaskets are included as required by UL 268A listing. Screws are included for mounting the detector into the enclosure.

**Features**

**Dimensions**

18” x 12” x 6”

(45.7 cm x 30.5 cm x 15.2 cm)

**Shipping Weight**

15 lbs. (6.8 kg)

**Temperature**

See detector specifications

**Finish**

ANSI 61 Gray polyester finish inside and out over galvanized steel

**Notes:**

- Enclosure shown in proper mounting orientation.
- (DH400ACDCIHT duct smoke detector not included.)
